

- 1 - Lock connectors
- 2 - Each cable 12"

- 1 - LED Disc
- 2 - Connecting Cord
- 3 - Driver with 2 step on-off switch

Connect to additional discs

### Surface Mount Installation

**Step One**

Using hands, separate outer aluminum shell from LED lamp.

**Step Two**

Using included hardware and a screw driver, secure outer aluminum shell to cabinet surface

**Step Three**

Feed connecting cord through a pre-drilled hole in the cabinet surface or through the cut-out of the outer aluminum shell. Secure LED lamp into outer aluminum shell.

### Recessed Installation

**Step One**

Using hands, separate outer aluminum shell from LED lamp.

**Step Two**

Cut out from the bottom of the cabinet a hole using a 2.5" hole saw.

**Step Three**

Feed connecting cord through the hole in cabinet and secure LED lamp.
